

A natural world in miniature

2026
Collection

Anthony Beeson

Sono un appassionato di storia ed esperto in architettura romana e greca.

Devo ammettere che il 2018 vede Collecta entrare nel suo dodicesimo anno di esistenza nella produzione di modelli di fauna e flora preistorica.

Continuo la mia missione verso nell'educare e fornire la maggior quantità di gioco creativo con la miglior precisione dei suoi modelli.

Quest'anno in stretta collaborazione con il mio collega, lo scultore Matthias Geiger, abbiamo prodotto un'altra selezione di animali per Collecta:

La serie di animali preistorici.

Matthias Geiger

Sono uno scultore tedesco con una grande passione per i dinosauri. In collaborazione con Anthony Beeson, porto vita alla visione preistorica di Collecta.

Deborah McDermott

Sono una scultrice che vive nel sud della California. Osservo l'anatomia, il movimento e le espressioni dei cavalli e le loro qualità uniche che rendono ogni animale diverso dall'altro.

COLLECTA AR - Realtà Aumentata

Display e dettagli

Sul crowner inoltre ci sarà un campione reale del dinosauro contenuto nella bustina.

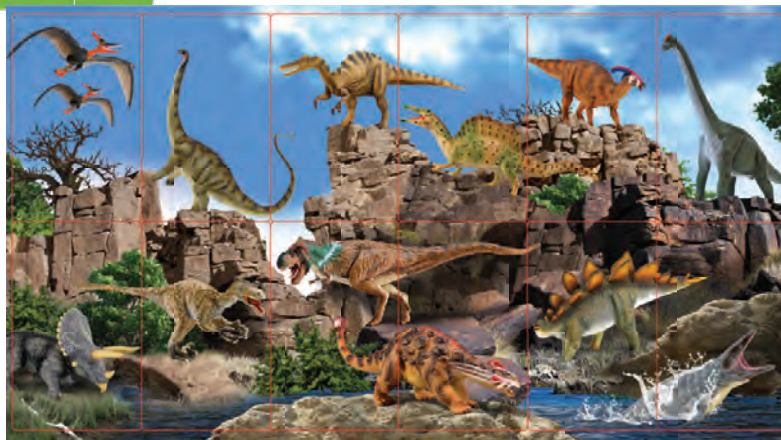

Sul crowner del display ci sarà una **CARD** come quelle contenute nelle bustine di prodotto, attraverso la quale il cliente potrà provare direttamente la funzione **AR - Realtà Aumentata** (solo dopo aver scaricato l'APP)

60061IT.CTA

Display 24
 bustine cieche
 contenente 12
 soggetti assortiti

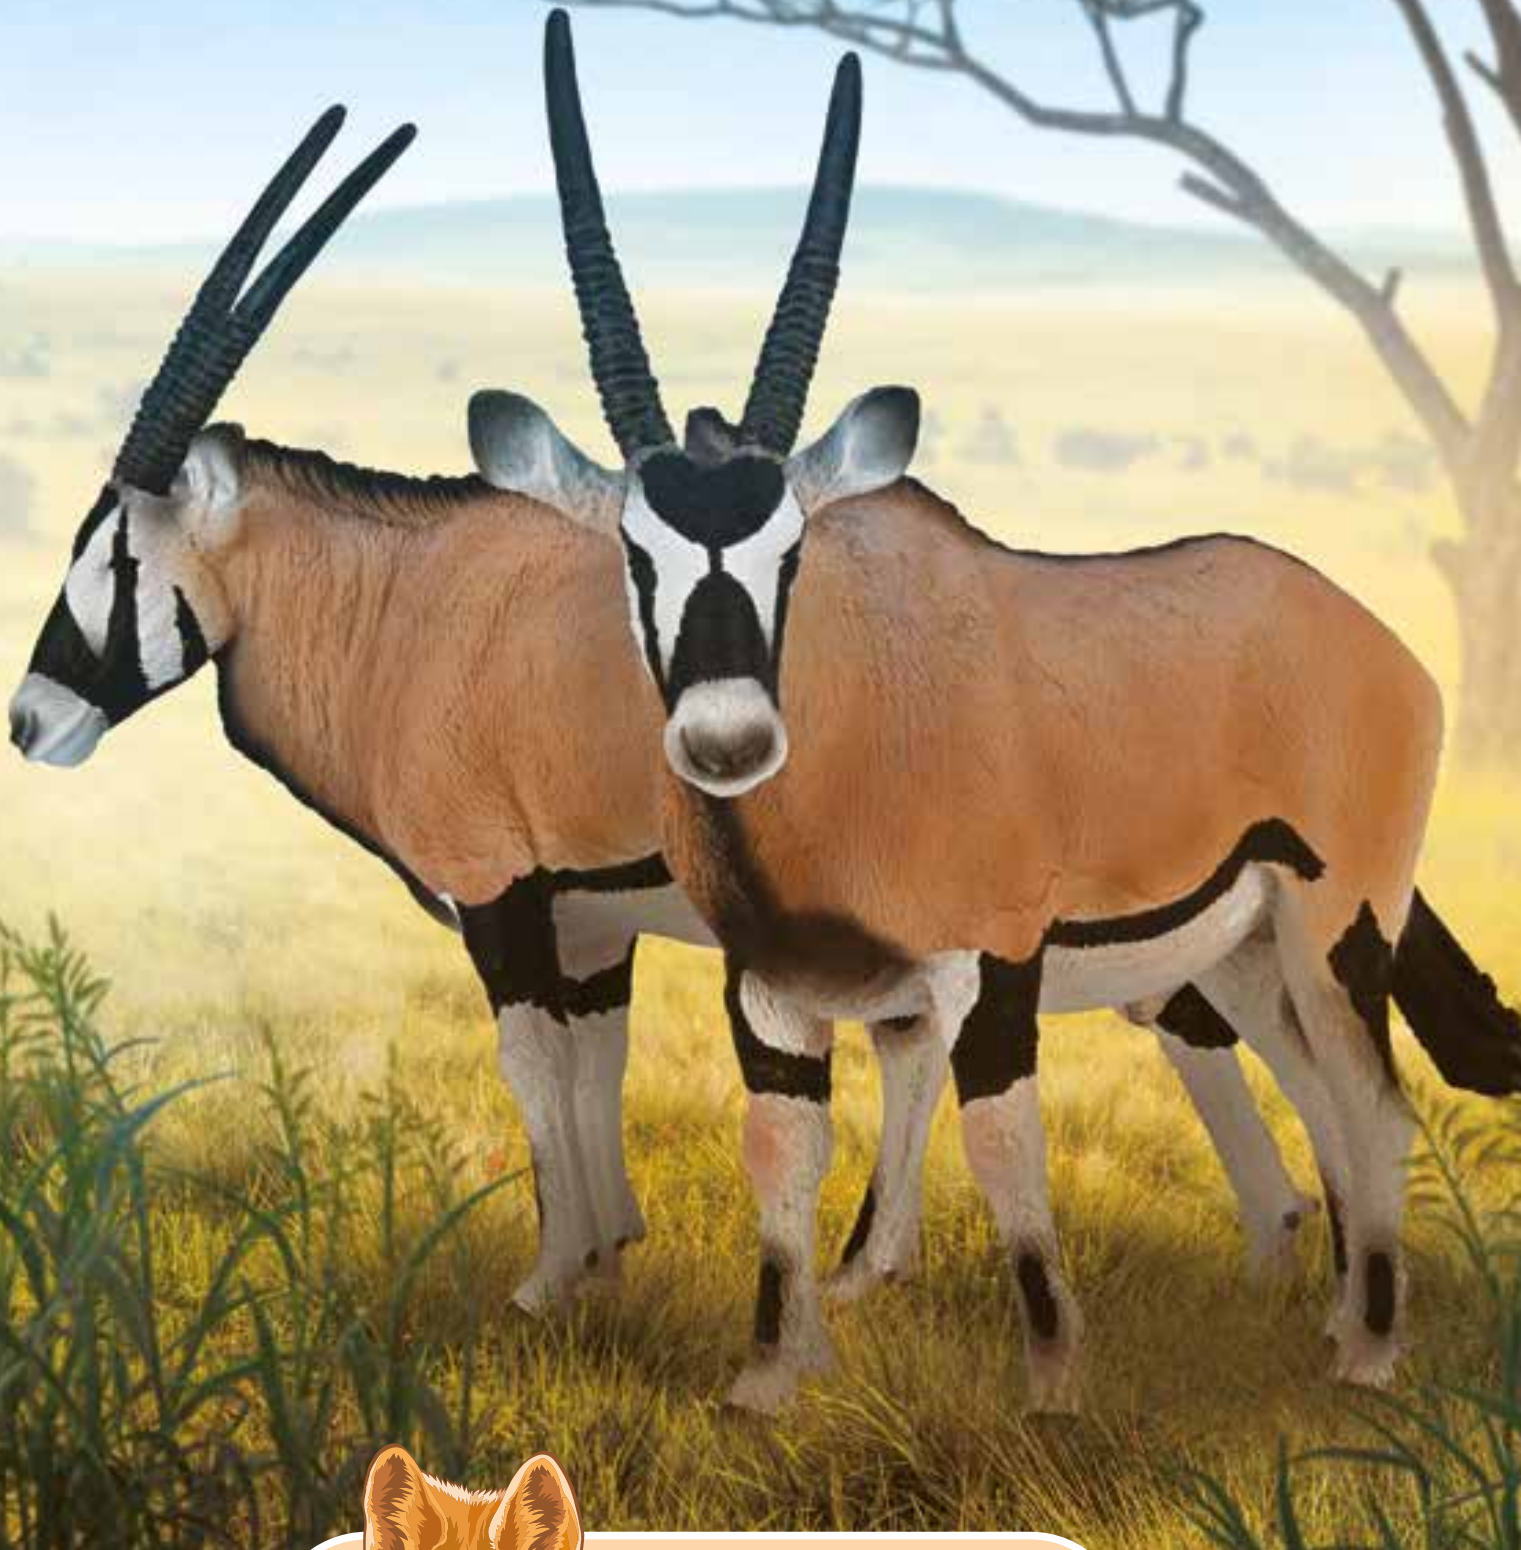

Se trovi tutte le **CARD** potrai comporre lo scenario preistorico...

... e colleziona tutti i 12 dinosauri!
